

FEATURED PRODUCTS SLIDER

Place your most popular products on a slider to enhance its visibility and increase sales. This module allows you to create a slider to display products on the home, category and product pages.

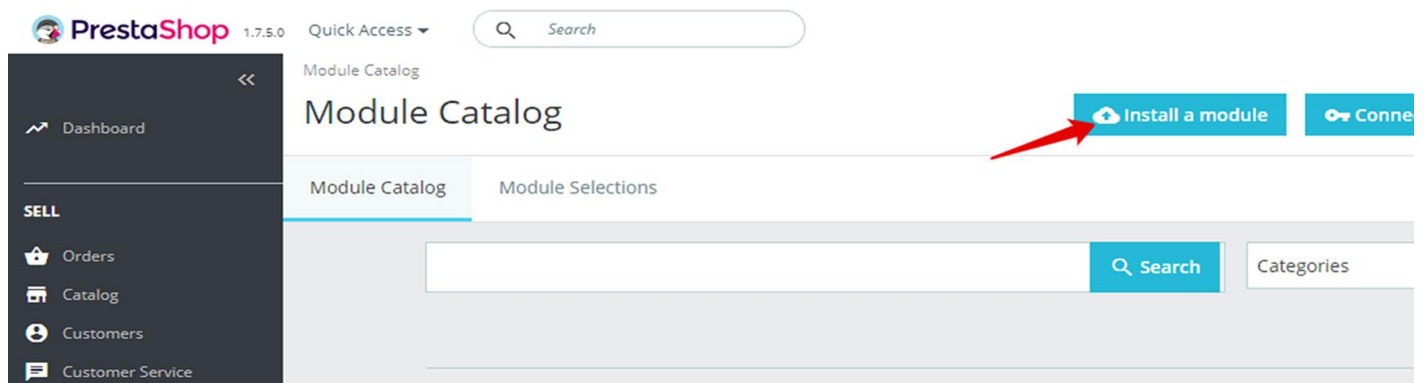

INSTALLATION:

Installing **Featured Products Slider** module into your PrestaShop store is simple and fast.

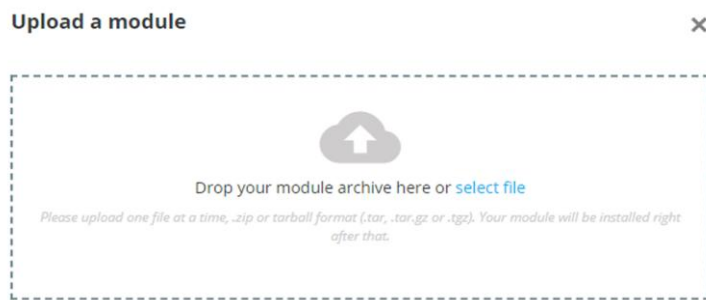

1. Log in to the admin panel of your store and go to **«Modules > Modules Catalog»**:

2. Once you have reached your Modules page, click the **«Install a module»**:

3. Drag&Drop a **featuredproducts.zip** or choose it from your computer:

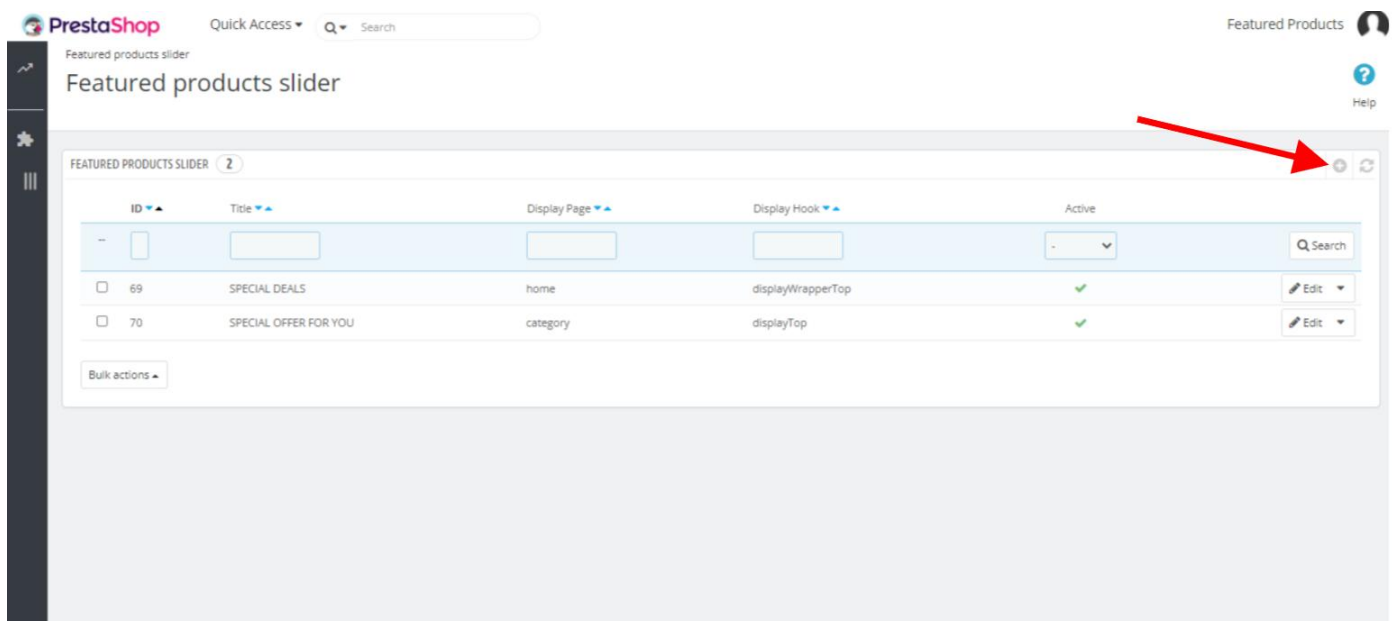

4. If everything went well, you will see the following message:

HOW TO CONFIGURE MODULE

1. Going to the module page you need to add the first slider by clicking on the «+» button:

2. Adjust the slider display settings, select the animation speed, the number of products in the slider:

ADD/EDIT SLIDER
