If you have not received this module from us, thank you for contacting us.

Do not edit or add to this file if you wish to upgrade this module to newer versions in the future.

About

The module 'The gift card is a front-office features module.

It generates customizable gift cards directly from the back office of your PrestaShop store. Purchasing a gift card by a user generates voucher which can be used for further orders

A back office interface enables you to create, modify and customize gift cards.

MODULE INSTALLATION

Prerequisite

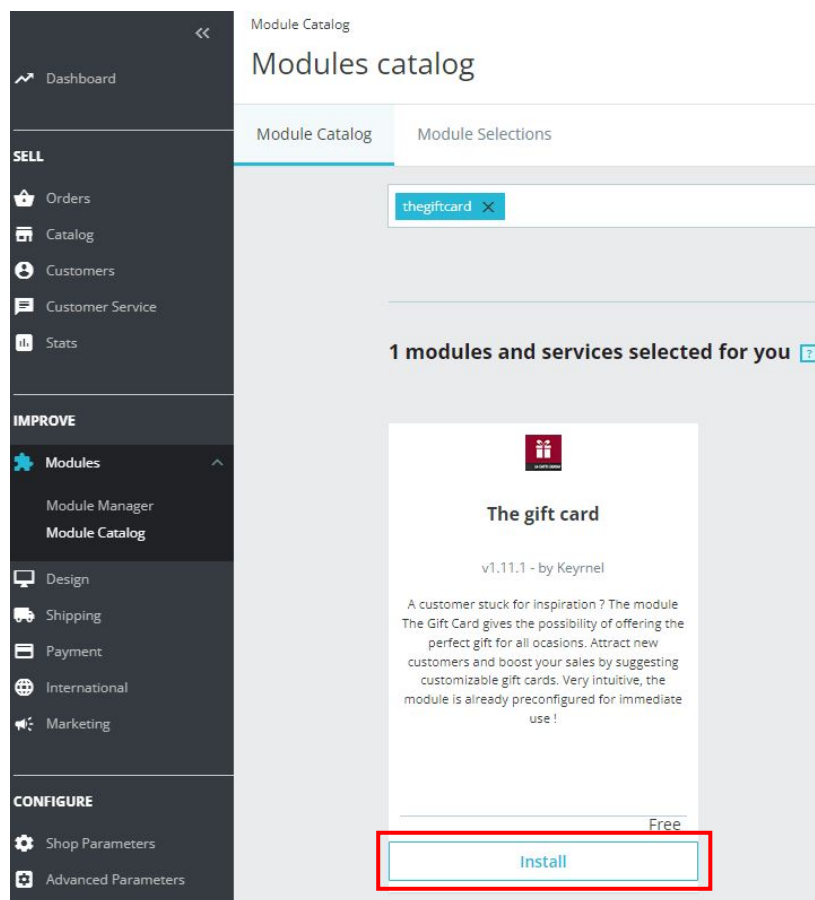

You need to have installed a working version of PrestaShop 1.7.7 or higher on your server:

<http://www.prestashop.com/en/download>

Installation

The module is installed with transparency on your shop, no core are altered or modified, enabling the continuity of future updates to your shop.

1. Unzip the archive containing the module to a temporary directory
2. Connect to your FTP server
3. Transfer the entire folder contents via your ftp server to the directory 'root/modules/'
4. Connect to your back-office, click on the menu 'Module Catalog', search for the module 'The gift card', then click on the button 'Install'.

BACK-OFFICE FEATURES

Module configuration

1. Connect to your back-office, menu 'Modules / Module Manager'
2. Search for the module 'The gift card'
3. Click on the button 'Configure'

Design & Navigation

The gift card
v1.11.1 - by
Keyrnel

A customer stuck for inspiration ? The module The Gift Card gives the possibility of offering the perfect gift for all occasions. Attract new customers and boost your sales by suggesting customizable gift cards. Very intuitive, the module is already preconfigured for immediate use !

- Statistics
- Gift card generator
- Display settings
- Translations

Statistics

Statistics cover all gift cards purchased by your customers. They provide information needed to monitor the activation and use of gift cards.

STATISTICS								
ID	Template	Amount	Voucher code	Beneficiary	Used	Validity	Order	Actions
1		€10.00	701MSSHQ0FR3	pub@prestashop.com email send resend		Date from: 10/11/2022 Date to: 10/11/2023	Reference: NHGRZCXHJ Date: 10/11/2022	GENERATE PDF

ID : unique number of the gift card

Template : thumbnail of the gift card template ordered by the customer

Amount : amount of the gift card purchased

Voucher code : code generated by the gift card to use the voucher

Beneficiary : email address of the recipient of the gift card. A status indicates whether the email has been sent or not.

Used : listing of amounts used on the gift card

Validity : validity date time of the gift card

Order : order reference and date of the gift card

4 actions are possible for monitoring and a better management of emails.

Add new gift card

To add a gift card manually, click on the "Add new gift card" button

Statistics				
Add new gift card				
ID	Template	Amount	Voucher code	Beneficiary

The gift card creation form is divided into 3 parts:

Image: Corresponds to the gift card image (to add new images, refer to the Gift Card Generator - Add New Template page, page 7)

Amount: Corresponds to the amount of the gift card (to configure the amounts, refer to the Gift Card Generator - Amounts page, page 11)

Customization:

1. **Recipient's name (optional):** Corresponds to the first and last name of the gift card recipient
2. **Recipient's email (optional):** Corresponds to the email address of the recipient of the gift card. Once the form has been saved, the gift card will be automatically sent by email to the address entered
3. **Message (optional):** Corresponds to a personalized message that will be displayed in the PDF of the gift card

To validate the creation of the gift card (and its automatic sending by email to the beneficiary), click on the "Save" button

Resend email

The 'Resend email' button lets you send again the email containing all the gift card information to the beneficiary.

This button is visible only when the first email generated during the payment validation has been correctly sent.

ID	Template	Amount	Voucher code	Beneficiary	Used	Validity	Order	Actions
1		€10.00	701M55HQ0FR3	pub@prestashop.com email sent		Date from: 10/11/2022 Date to: 10/11/2023	Reference: NHGRZCXHJ Date: 10/11/2022	GENERATE PDF Resend

To resend an email, click on the button 'Resend email' of the line corresponding to the gift card you want to resend again. A confirmation message will be displayed once the email correctly sent.

Manually send not delivered emails

If some emails have not been correctly sent, an error message appears mentioning the number of emails not delivered and the gift cards linked to the error are highlighted with a red background.

1 emails have not been automatically sent to users. Use the following button to manually send them. Send emails

STATISTICS

ID	Template	Amount	Voucher code	Beneficiary	Used	Validity	Order	Actions
2		€10.00	TCFAQSJXCRZ	pub@prestashop.com email not send		Date from: 10/11/2022 Date to: 10/11/2023	Reference: FFCIUOQMH Date: 10/11/2022	GENERATE PDF

Non-delivery of emails may occur due to a temporary failure of the mail server or the cron runtime server.

To manually send undelivered emails, click the 'Send emails' button to the right of the error message. A confirmation message will appear after all emails have been sent correctly.

The message was successfully sent to the customer.

Generate PDF

The "Generate PDF" button allows you to manually regenerate the PDF containing the gift card information.

Gift card generator

The gift card generator lets you define images and amounts necessary to generate each gift cards.

Templates

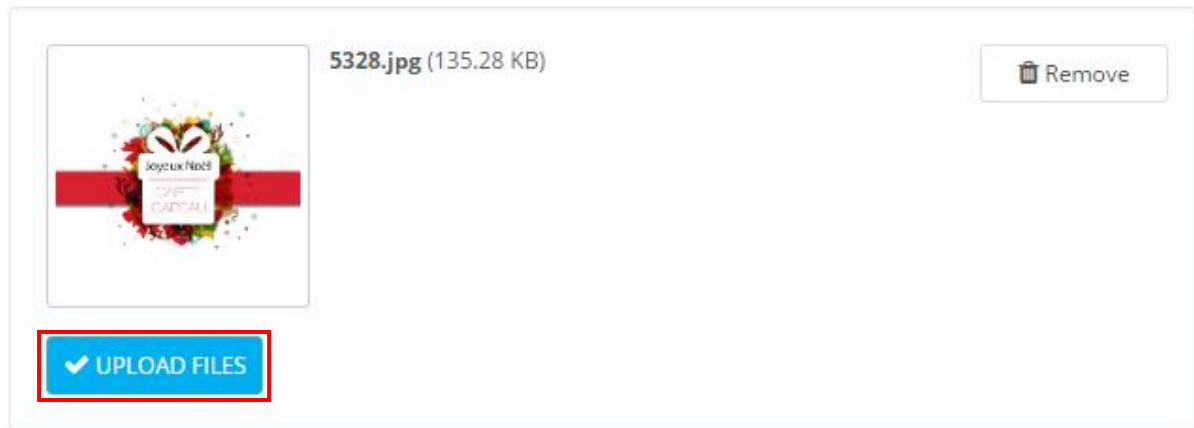

Templates are the images used to generate gift cards. You can add as many templates as you want. These will be selected directly by customers for purchasing a gift card.

Add a new template

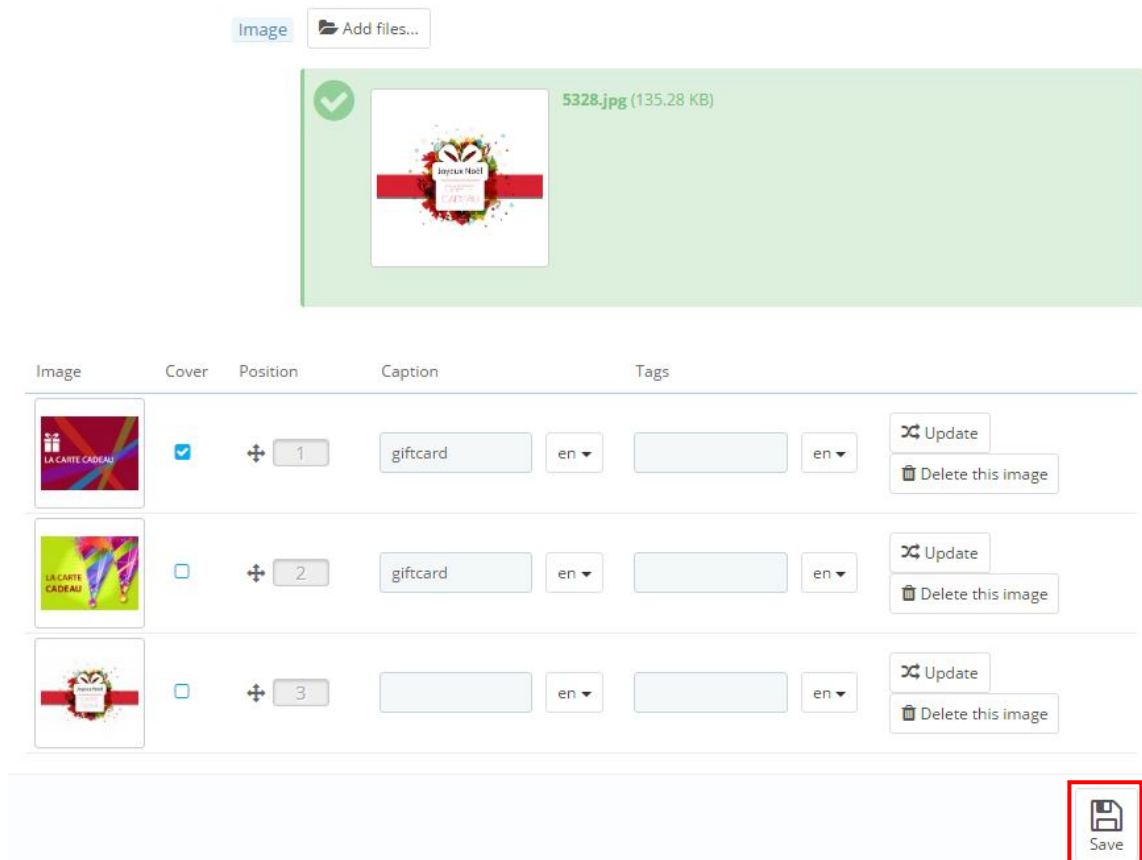

1. Click on the button 'Add files

2. Select images you want to use as template (You can select several images at once by keeping the key 'Ctrl' pressed)
3. Click on the button 'Upload images'

4. Click on the button 'Save'

Delete a template

1. Click on the button 'Delete this template'

2. Click on the button 'Save'

Set a default template

The default template will be visible by users in all product pages (if 'gift card Visibility' is different from 'Nowhere'), and it will be selected by default in the page containing gift cards.

1. Click on the checkbox 'Cover' of the image you want as default.

Image	Cover	Position	Caption	Tags
	☒	1	giftcard	en ▼

Edit template position

The position let you set the display order of a template on the page containing gift cards.

1. In the 'Position' column, click and hold the left mouse on the template you want to move.

Image	Légende	Position	Couverture
	carte-cadeau	2	Supprimer cette image
	carte-cadeau	1	☒ Supprimer cette image

Update image captions

The legend is used to provide the same information as the image in the code of the page. The purpose of this information is that it remains available when the image cannot be loaded (because of a server overload or a connection problem ...) or it cannot be viewed (by a search engine robot or a screen reader user ...)

1. For each language installed on your shop, set the caption attached to the uploaded image.

Légende

en ▼

Légende

fr ▼

- Click on the 'Update' button on the right for each line whose caption has been modified

Image	Cover	Position	Caption	Tags
	☒	+ 1	giftcard en ▼	Update Delete this image

Update tags (grouping images by theme)

The tags let you group the gift cards by theme. So all gift cards with a common tag will be displayed together in a tab with the name of the tag in front-office.

- For each language installed on your shop, enter the tags attached to the uploaded image. You can add as many tags as you like by pressing the space key.

en ▼

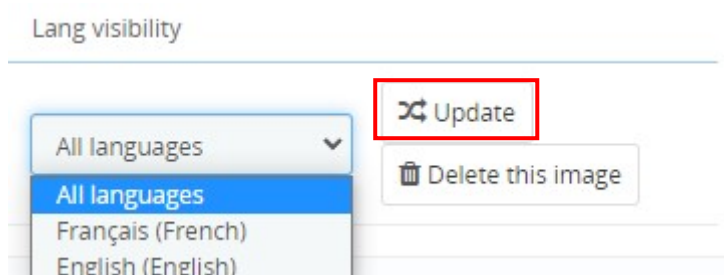

- Click on the 'Update' button on the right for each line whose tags have been modified

Image	Cover	Position	Caption	Tags
	☒	+ 1	giftcard en ▼	Update Delete this image

Restrict the display of images to a specific language

This option allows you to filter the images visible in the front office according to the customer's language

1. Select the language in which the image will be visible in the front office
2. Click on the 'Update' button on the right, for each line whose language has been modified

Amounts

The amounts represent the value of the discount vouchers linked to the purchase of a gift card by a customer.

Save

- **Currency**

Select the currency of the "gift card" product for which you wish to configure the gift cards amounts. There is 1 "gift card" product per currency installed on your shop.

- **Active**

This option allows you to activate or not the "gift card" product associated with the selected currency.

- **Tax**

Select the tax rate to be applied to the "gift card" product

- **Custom amount 'from' – 'to'**

Those fields define the limits of custom amounts for a gift card. This means that a customer will be able to enter the amount she/he wants for his gift card between these two limits.

- **Pitch between each custom amount'**

Set the pitch between each custom amount. For example with a pitch of 5 €, users will be able to select an amount such as 10, 15, 20 € etc.

- **Fixed amount**

A fixed amount is an amount that will be directly selectable by the customer when purchasing the gift card. You can define as many fixed amounts as you like. These must be within the defined limits of custom amounts. Each fixed amount must be followed by a comma (10, 20, 30 ...).

- **Only show fixed amount**

Only fixed amounts will be visible in the front office. Select 'Yes' if you do not want the customer to be able to enter a custom amount.

- **Default Amount**

Enter the default amount that will be automatically selected and visible in front-office. This amount must correspond to one of the fixed amounts entered in the 'Fixed Amount' field.

For validating modifications, click on the button 'Save'.

Settings

 **Settings**

Show customization fields on "Print at home" gift cards ☒ Yes

Allow gift cards to be sent at a later date ☒ Yes

 To execute the cron task, please insert the following line in your cron tasks manager:

```
0 * * * * curl "http://localhost:8080/index.php?fc=module&module=thegiftcard&controller=cron&secure_key=a72b8c2d20e2bc486c7c5014a25cfa7d"
```

* Datetime validity

Automatically delete unused gift cart combinations ☒ Yes

Automatic management of restrictions applied to cart rules for gift cards ☐ No

 Save

- **Show customization fields on "Print at home" gift cards**

This option allows your customers to enter the name of the gift card recipient and a personalized message with the "Print at home" option (PDF of the gift card sent to the email of the customer placing the order)

- **Allow gift cards to be sent at a later date**

This option allows your customers to schedule the delivery of a gift card to a recipient for a later date.

Set up the cron task on your server with the URL provided or by using a specialized third-party service such as easycron.com.

- **Datetime validity**

The validity period is the time to use the gift card once the customer confirms the order thereof. The default value is set to one year.

- **Automatically delete unused gift cart combinations**

Enable this option to delete the combinations chosen by users when they are no longer in use. This option reduces module loading time on both the back office and the front office.

- **Automatic management of restrictions applied to cart rules for gift cards**

Enable this option to allow or disallow the ability to stack voucher codes generated by the module and other cart rules in your shop.

- **Allow combinations of gift card codes with other cart rules**

Select 'Yes' to allow compatibility of voucher codes generated by the module and other cart rules in your shop.

Select 'No' to restrict compatibility

- **Allow cart rules on gift card product**

Select 'Yes' to authorize the addition of a discount code when the cart contains a "gift card" product.

Select 'No' to restrict compatibility

Note: This feature only applies to cart rules offering a percentage discount and that have no configured product restrictions.

Email « Send to a friend »

- **Subject**

Corresponds to the subject of the email sent to the gift card recipient for gift cards ordered with the « Send to a friend » option.

The parameter %s will be replaced by the name of the customer who ordered the gift card.

- **Corps**

Click on the 'Edit email template' button to be redirected to the email translations page and modify the body of the « Send to a friend » email.

Each email template is customizable for all installed languages on your shop.

List of variables used :

{customer} : full name of the customer purchasing a gift card

{name} (only for « Send to a friend » email template) : name of customer's friend

{image_url} : gift card image link generated

{image_width} : gift card image width

{image_height} : gift card image height

{giftcard_amount} : gift card amount

{giftcard_code} : voucher code generated

{giftcard_expiration} : expiration date of the gift card

{giftcard_expiration_date} : expiration period of the gift card

For validating modifications, click on the button 'Save'.

Display options

The display options manage visibility of gift cards in your shop as well as customizing the page associated with them.

Category settings

The image shows a screenshot of the 'CATEGORY SETTINGS' form in PrestaShop. It includes fields for 'Category name' (set to 'Gift cards'), 'Category description' (with a rich text editor), and 'Category image' (with a large image preview and a 'Delete' button). Below the image is a file upload section with an 'Add file' button. At the bottom, there is a 'Display category' toggle set to 'YES' and a 'Save' button.

- **Category name**

Category name containing the 'gift card' product. Forbidden characters: <>;=#{}

The title (meta tag) as well as the rewritten url of the front-office gift card page will also be updated with the name of the category.

- **Category description**

Category description. It will be visible in the banner below the category name within the page associated with gift cards.

The description (meta tag) of the front-office gift card page will also be updated with the description of the category.

- **Image**

Banner image. You can upload an image from your pc.

For deleting an existing banner, click on the button 'Delete'.

- **Display category**

Enable this option if you want to make visible the category containing gift cards.

This is useful if you wish to index the gift card in the search engine of your shop.

FRONT-OFFICE FEATURES

Ordering a gift card

Customization of the gift card

Go to the front page associated to gift cards. (default: <https://your-domain/gift-cards>)

Selecting a gift card is divided into three steps

1. Choose a template

Here are grouped all templates defined in back office (see Back-office Features / Module configuration / customizing gift cards)

To select a template, simply click on it. The selected template is outlined by a blue border.

 CHOOSE A TEMPLATE

You can view the model in larger mode by flying over the image and clicking on the icon in the center.

2. Choose an amount

Here are shown all amounts defined in back office (see Back-office Features / Module configuration / customizing gift cards).

 CHOOSE THE AMOUNT

€ 10,00 € ▼

The fixed amounts defined in back office are directly selectable.

For entering a custom amount, select 'Other amount'

 CHOOSE THE AMOUNT

€ Other amount ▼

Custom amount between 10,00 € and 50,00 € :
Price range: 1,00 €

€

A new field appears allowing users to enter the amount they want for their gift card.

3. Choose a sending method

Two solutions are available for users to send their gift card.

Print at home : Customers will receive their gift card in their email (the same as the customer account)

Send to a friend : new fields appear to customize information contained in the email sent to the gift card beneficiary

✉ CHOOSE YOUR SENDING METHOD

☐ Print at home
 ☒ Send to a friend

Friend Name

Email

Email content

Date of send

- Friend name** : the gift card beneficiary's name
- Email** : the gift card beneficiary's email
- Contenu de l'email** : custom text attached to the email sent
- Date of send** : mailing date of the gift card

Note: If the mailing date is scheduled after the purchase date, email will be send automatically thanks to a cron job task (see Back-office Features / Other settings / Automatic email sending).

To view the PDF that will be generated and send by email as an attachment to the beneficiary of the gift card, click on the 'Preview' button.

For validating all the custom fields, click on the button 'Add to cart'.

Order validation

The order tunnel for a gift card is the same than a classical product.

All of gift card customizations are displayed in the order summary.
